MISSIONAL EXPRESSIONS & OPPORTUNITIES

Many local churches have ministry programs taking place that do not have a place in standard reports sent by the district and general church. In our 2017 District Assembly and Conventions we celebrated "Missional Expressions" that usually go unnoticed. If your church has a ministry method touching the lives of people in the community that is not recognized in the standard questions of a pastor's report, would you share the information with us? **You can do so at any time** by email to the district office or District Superintendent.

If you would like to send information related to such Missional Expressions please feel free to send the information to us at any time. Include the ministry name, local church, leaders involved, how long this has been done, and how the ministry touches lives for the Kingdom. Forward them to the district office at crobinson@wvnd.org or kdennis@wvnd.org.
